My tracks (4)

Your contributions to WalkeGNOS will be listed on this page. Tracks marked with a (✓) are currently published and visible to anyone. Orange tracks (🚧) are in draft mode and visible to you only. A GPX file (uploaded or elaborated from a Rinex file) is required to publish a track.

TRACK NAME	LENGHT	EST. TIME	CATEGORY	GPX	RINEX	STATUS	EDIT
Alpe Scandalorso	0	4	NORDIC WALKING	GPX	RINEX	✓	🗑️
ISMB Test (GPX)	1	1	WALKING	GPX	RINEX	🚧	🗑️
ISMB Test (RINEX)	1	1	WALKING	GPX	RINEX	🚧	🗑️
New track	0	0		GPX	RINEX	🚧	🗑️

Fill in all the requested fields to allow users better understand the hike you suggest!

Track information

The track informations can be edited anytime by you and WalkEGNOS staff. Please try to provide accurate and verified data (distance, estimated time, difficulty) before publishing the track.

Name

It will identify your track on the website

Description

Category

Suitable for...

Lenght

In meters, e.g. "4600"

Estimated time

In hours, e.g. "1.5"

Difficulty

How do you rate it?

Region

Choose from the list

Start location

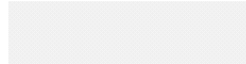

Where the track starts

End location

Where the track ends

Meteo reference

Town/place to get meteo info

Most important, include your GPX and RIN files and do not forget to add some nice pictures to allow users to have a look to the breath-taking panorama they will see if following your EGNOS enhanced track!

Users can choose of upload:

GPX and a RIN file together, to fully benefit of EGNOS corrections and thus making available a much more precise track to other users; or

Only a GPX file, but no EGNOS corrections will be added

Meteo reference
Town/place to get meteo info

GPX file is missing

⚠ Upload at least one image to publish this

⚠ Missing GPX file Upload

⚠ Missing RIN file Upload

PREVIEW SAVE TRACK

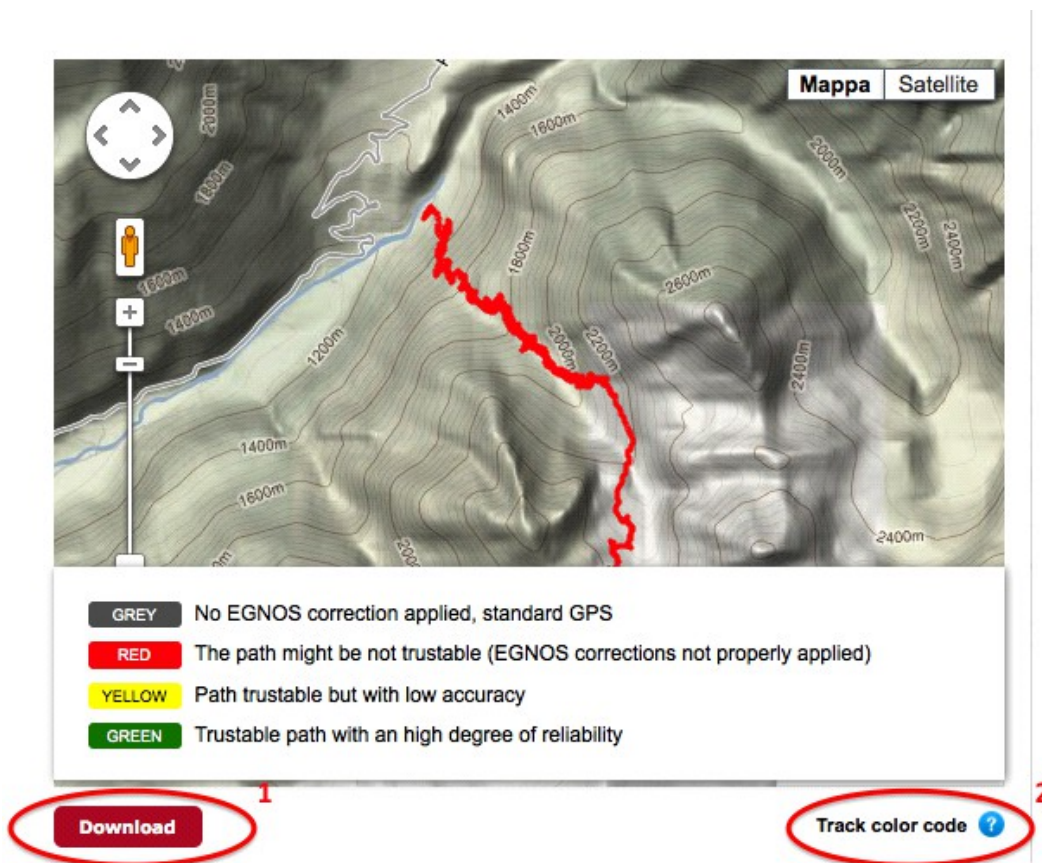

IMAGE GALLERY Upload image

Once you have filled in all the required fields and attached the requested files and pictures, you have just to push “save track” button and the track, including your suggested Points Of Interest (POI) will be visible to anyone!

Download EGNOS enhanced tracks integrated with POIs

Download an EGNOS enhanced track is easier than cleaning your hiking boots: all users, even if not logged in, are just requested to pick up the desired track and push the download button (“circle 1” in the picture).

While picking the track, have a look to the track colour (“circle 2”): only green tracks fully benefit of EGNOS corrections!

Exchange messages and opinions with other users

If you want to exchange messages and opinions about tracks and mountains you have just to click on a user’s profile and then push the button “send message”: you will be able to get in touch with any WakeEGNOS user!
